

Amazing Opportunities – Science

<https://www.futurelearn.com/>

Electrical Engineering: Sensing, Powering and Controlling

Get a taste of an electrical engineering degree. Build your confidence in communicating ideas and using technical vocabulary.

<https://www.futurelearn.com/courses/electrical-engineering>

ABC of Flight Mechanics: How Do Planes Fly?

Discover how airplanes work and explore simple flight mechanics: from take-off and landing, to the physics of flight.

<https://www.futurelearn.com/courses/flight-mechanics>

The Science of Nuclear Energy

Discover the science behind nuclear energy and its role in energy provision in the past, present and future.

<https://www.futurelearn.com/courses/the-science-of-nuclear-energy>

Discovering Science: Atmospheric Chemistry

What can we learn about Earth, and other planets in and beyond our solar system, by studying their atmospheres?

<https://www.futurelearn.com/courses/discovering-science-atmospheric-chemistry>

Biochemistry: the Molecules of Life-

Explore the impact of biochemistry on bioenergy and health, discovering why graduates are in demand; with the Biochemical Society.

<https://www.futurelearn.com/courses/biochemistry>

Forensic Psychology: Witness Investigation

Discover how forensic psychology helps obtain evidence from eyewitnesses in police investigations and prevents cases of injustice

<https://www.futurelearn.com/courses/forensic-psychology> Starts on 13th July 2020

Remember, this shows that you are motivated, committed and proactive with your learning and can organise your time productively and are proactive
