

# Entry expectations

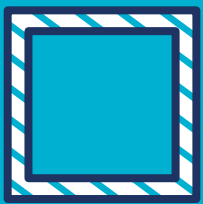

Students are to arrive at the Academy on time for their hand wash - if you are late you will be required to go to the main reception where late procedures will be applied (see attendance policy).

Students are to arrive at the Academy under social distancing guidelines of 2 metres distance from others.

Students will enter the Academy through their designated entry point (see behaviour policy).

Students are to line up at their entry point as instructed by Academy staff to allow for the hand wash to take place. When moving around the Academy to your designated classroom there should be an empty box between you and other people.

On entry students will be asked to take off any outdoor coats etc and apply their face mask if they are not already wearing this. As stated previously this is not compulsory but is advisable to reduce the spread of germs within the Academy to allow both students and staff to stay safe. Students will not be allowed to take their masks on and off as this will mean increasing contact with the mask from their hands.

Students will wash their hands at the designated sink units at specific points throughout the day adhering to the COVID-19 guidelines.

Students will then be supported in making their way to their designated classroom in preparation for their lessons.
